Memorandum

Date: April 2, 1996

To: Loren Bottorff

From: Steve Yaeger, Program Deputy Director
CALFED Bay-Delta Program

Subject: Introduction

In our introduction to the alternatives lets be sure to make the point strongly that the sizing of the elements of the alternatives is not set in concrete. That is, just because we show, for example, North of Delta Storage at 0.5 to 1.0 maf that does not mean that it won't change after analysis in Phase II to 200 taf or 3 maf. The elements are meant to illustrate concepts within the solution strategy.
